Why Infinite Campus? Why Vanco?

- Familiar with Infinite Campus.
 - Office staff already working in Infinite Campus daily.
 - Parents already using Parent Portal with Infinite Campus.
- Infinite Campus & Vanco share data and work “seamlessly” together.

What are the Pros of Infinite Campus?

- Synched activity between Student Management System & Payment Processor.
 - Parents have one place to login to access grades, attendance, food service and other fees.
 - Multiple Payment options and customization on frequency of payments.
 - In office
 - Parent Portal
 - Phone
 - Low balance scheduled payments OR recurring payments, monthly for example.
- 

Pros of Infinite Campus continued

- Less NSF checks.
- Less food service accounts with negative balances.
- Our employees touch less cash/checks.
- Scheduled low balance emails.
- Billing notices consistently sent.
- Batch entry of fees.
 - Class of 2022 dues.
 - Band t-shirts.
 - Co-curricular meals.

Cons of Infinite Campus/Vanco

- Two companies, two customer service reps.
 - When issues, one company always pointed the finger at the other company.
 - Entries in each side have to match exactly or items won't process or recognize.
 - Fees (always going to be fees)
 - \$0.35 per transaction + % based on card type.
- 

Infinite Campus – July 2021

- Infinite Campus will be stand-alone for SD customers starting in July 2021. Everything we need to do will be done in Infinite Campus and we won't need to work with an external payment processor.
 - We don't know the details yet, but it should be better for us as users to only work within Infinite Campus.
-

Recommendations

- Do your research & figure out your priorities.
 - Start small – maybe implement for food service only at first.
 - Set-up and test a few payments out before rolling out to everyone.
 - It will take time to refine your processes, but be patient.
-
