With respect to Mr. Seiler's question regarding air emission credits, the response from former Commissioner Brunner was that we COULD be involved with any number of credits. He specifically mentioned wetland credits and carbon credits, in addition to air emission credits. He said there are consultants who are available to help sell these credits, and some states DO this. However, he cautioned that it is VERY technical and difficult for a small office. He said given our office of 6-7 FTE's it would be difficult to devote enough time to do this.
